  influence of changing on incidence and outcome of ventricular fibrillation complicating myocardial infarction (Pentecost *et al*). 717, *P*
  possible depressant effect on sinus node function in sick sinus syndrome (Shenasa *et al*). 108, *P*
Aortic
  dissection, cross-sectional and M-mode echocardiography in (McLeod *et al*). 119, *P*
  regurgitation, comparison of prazosin and digoxin (Hockings *et al*). 550
  root dissection, cause of early systolic closure of aortic valve (Candell-Riera *et al*). 579
  stenosis, congenital, natural history and assessment for operation (Hossack *et al*). 561
    Doppler ultrasound in non-invasive assessment of (Hatle *et al*). 284
  valve disease, non-invasive diagnosis and assessment (Veyrat *et al*). 393
  valve replacement, emergency, in rheumatoid aortic valve prolapse: case report (Linch *et al*). 237
Aortocoronary bypass surgery
  graft operation, exercise thallium-201 myocardial scintigraphy in follow-up (Wainwright *et al*). 56
  for prophylaxis only, evaluation (Balcon *et al*). 120, *P*
Aorticopulmonary window, two-dimensional echocardiography in diagnosis (Satomi *et al*). 351
Apnoea, severe, and prolonged duct patency after use of prostaglandin E_2 (Jones *et al*). 727, *P*
Arrhythmia(s)
  induced by coronary reperfusion, role of alpha adrenergic stimulation (Sheridan *et al*). 114, *P*
  in mitral valve prolapse, sites of origin and behaviour, assessment using 12 lead electrocardiography (Pitcher *et al*). 117, *P*
  and mortality in hypertrophic cardiomyopathy (McKenna *et al*). 719, *P*
  three-dimensional ambulatory monitoring (Talbot *et al*). 723, *P*
  ventricular, relation to primary ventricular fibrillation (Campbell). 100, *P*
Atenolol in angina pectoris, haemodynamic and metabolic effects (Thompson *et al*). 668
Athletes, abnormal ECGs in (Oakley, GDG & Oakley CM). 123, *P*
Atrial, atrium
  fibrillation, paroxysmal, and vagotonic sinus bradycardia (Rowland *et al*). 108, *P*
  left, potentials, recording from pulmonary artery (Breithardt & Seipel). 689
  pacing, autodecremental, micropressor-based tachycardia termination system (Ward *et al*). 115, *P*
    leads, advances in (Sutton *et al*). 116, *P*
Atrioventricular
  junction, M-mode subxiphoid echocardiographic scan in analysis (Hunter *et al*). 105, *P*
  tachycardia, re-entry, relation between symptoms, initiation zone and oral antiarrhythmic treatment (Rowland & Krikler). 718, *P*

Bacterial endocarditis, failure of prophylaxis, American Heart Association Registry: correspondence (Bisno *et al*). 244
Balloon
  atrial septostomy in complete transposition, risk factors (Leanage *et al*). 102, *P*
  counterpulsation, intra-aortic, preoperative, for left main coronary surgery (Tahan *et al*). 191
Bayesian analysis of stress thallium-201 scintigraphy (Murray *et al*). 110, *P*
Beta adrenoceptor blockade
  chronic, during healing phase of myocardial infarction, improvement of ECG (Yusuf). 99, *P*
  control of coronary artery smooth muscle (Lewis *et al*). 112, *P*
  drugs, assessment in hypertrophic cardiomyopathy (Alvares & Goodwin). 100, *P*
    in non-obstructive hypertrophic cardiomyopathy, haemodynamic effects (Talbot *et al*). 113, *P*
  effects on work-ΔST segment curves during exercise, relation to subsequent results of coronary artery bypass surgery (Jennings *et al*). 419
  exercise testing after, improved specificity and predictive value in detecting coronary heart disease (Marcomichelakis *et al*). 252

heart rate response to glyceryl trinitrate as test (Stallard *et al*). 725, *P*
withdrawal, heart responses after (Ross *et al*). 114, *P*
Björk-Shiley prosthetic valve, mitral paravalvular regurgitation with, echophonocardiography (Griffiths *et al*). 325

SUBJECT INDEX

1980, Volume 44

Age, importance in prehospital and hospital mortality of myocardial infarction (Wilcox & Hampton). 503
Amiodarone, clinical antiarrhythmic effects in resistant paroxysmal tachycardias (Ward *et al*). 91
  electrophysiological assessment in treatment of resistant supraventricular arrhythmias (Rowland & Krikler). 82
Aneurysm of main left coronary artery: case report (Kessler *et al*). 228
Angina pectoris
  effect of nifedipine on exercise tolerance in (McIlwraith *et al*). 335
  evidence for emotionally-induced coronary arterial spasm in (Schiffer *et al*). 62
  haemodynamic and electrocardiographic effects of frusemide during supine exercise (Nechwatal *et al*). 67
Angiography, nuclear, *see* Nuclear angiography
Antibiotic prophylaxis against infective endocarditis after normal delivery (Sugrue *et al*). 499
Aorta, coarctation, *see* Coarctation of aorta
Aortic
  atresia occurring with complete transposition of great arteries: case report (McGarry *et al*). 711
  regurgitation, assessment of pulsed Doppler echocardiography in detection and quantification (Quinones *et al*). 612
  root dissection: correspondence (Doi: Candell-Riera). 606
  stenosis, prediction of left ventricular pressure in (Brenner *et al*). 406
  valve disease, correlations of fibrosis in endomyocardial biopsies in (Oldershaw *et al*). 609
  early systolic closure (Wong *et al*). 386
  see also Cardiac valves
Apex cardiography, calibrated pressure, correlation with high-fidelity left ventricular pressure (Reddy *et al*). 194
Arrhythmias, late, and conduction disturbance, detection after correction of Fallot (Deanfield *et al*). 248
  supraventricular, resistant, electrophysiological assessment of amiodarone in treatment (Rowland & Krikler). 82
  ventricular, sustained, heart rate and ectopic prematurity in relation to (Yusuf *et al*). 233
Atrial, atrium
  fibrillation, efficacy of procainamide infusion in (Halpern *et al*). 589
  filling, differential, after Mustard and Senning repairs (Wyse *et al*). 692
  flutter, response to overdrive atrial pacing and disopyramide phosphate (Camm *et al*). 240
  isomerism, morphological considerations pertaining to recognition, and sequential chamber localisation (Macartney *et al*). 657
  left, anomalous connection of right superior vena cava to, echocardiography in detection: case report (Truman *et al*). 718
  massive dilatation: correspondence (Daley). 724
  septal defects, identification by cross-sectional contrast echocardiography (Bourdillon *et al*). 401
  secundum or sinus venosus type, non-invasive diagnosis (Egeblad *et al*). 317
  variations in height of jugular "a" wave in relation to heart rate in, and in normal subjects (Thiron *et al*). 37
Atrioventricular
  block, chronic caused by unsuspected coronary artery disease in middle age (Ginks *et al*). 699
  nodal function in progressive systemic sclerosis, electrophysiological and morphological findings (Roberts & Cabeen). 529

Beta-adrenoceptor blockade
  adaptation of hypertensives to treatment (Williams *et al*). 473
  long-term, and cardiovascular reflexes after myocardial infarction (Bennett *et al*). 265
  in congestive cardiomyopathy, beneficial effects (Swedberg *et al*). 117
  in hypertension, excessive plasma dopamine increase at rest and during exercise after (Franz *et al*). 25
  withdrawal in congestive cardiomyopathy, adverse effects (Swedberg *et al*). 134
Blood pressure and effect of exercise before and after surgical correction of coarctation of aorta, children (Earley *et al*). 411
Bronchial situs, use of high kilovoltage filtered beam radiographs for detection (Deanfield *et al*). 577
Bundle-branch aberration, right and left, QRS waveforms in (Talbot *et al*). 184

Calibrated pressure apex cardiography, correlation with high-fidelity left ventricular pressure (Reddy *et al*). 194
Captopril in clinical hypertension (Atkinson *et al*). 290
Carcinoma, secondary, left atrium simulating myxoma (Thomas *et al*). 541
Cardiac
  failure, exercise performance, effects of hydralazine and prazosin compared (Fitchett *et al*). 215
  rhythm in healthy newborn infants: correspondence (Hellestrand & Camm: Southall & Shinebourne). 113
  surgery, changes in ventricular size and plasma renin activity after, children (Bourgeois *et al*). 297
  for non-rheumatic mitral regurgitation, assessment of prognostic factors (Saltissi *et al*). 369
  mechanical haemolytic anaemia after (Warnes *et al*). 381
  tumours, *see also* Myxoma: Tumours, cardiac
  valves, *see* Valves, cardiac, and specific names
Cardiomyopathy(ies)
  congestive, beta-blockade withdrawal, adverse effects (Swedberg *et al*). 134
  chronic and ischaemic, estimation of pulmonary artery wedge pressure in (Dash *et al*). 322
  long-term beta-blockade in, beneficial effects (Swedberg *et al*). 117
  definition and classification, WHO/ISFC task force, Paris June 1980. 672
  hypertrophic, chest pain in, assessed by exercise thallium-201 myocardial scintigraphy (Pitcher *et al*). 650

and hypertensive heart disease, echocardiographic differentiation (Doi *et al*). 395
obstructive, effects of propranolol (Thompson *et al*). 488
histopathological specificity, myocardial fibre disarray and myocardial fibrosis (Sutton *et al*). 433
prediction of mortality and serious ventricular arrhythmia, echocardiography (Doi *et al*). 150
Cardiovascular complications of homozygous familial hypercholesterolaemia (Allen *et al*). 361
Catheter sheath, broken, non-surgical extraction from right atrium, using Dormia ureteral stone dislodger: case report (Wahi *et al*). 349
Chest, pain in hypertrophic cardiomyopathy, assessment using exercise thallium-201 myocardial scintigraphy (Pitcher *et al*). 650
x-ray in chronic heart failure (Dash *et al*). 322
with echocardiography and phonocardiography in diagnosis of atrial septal defect (Egeblad *et al*). 317
Coarctation of aorta, blood pressure and effect of exercise before and after surgical correction, children (Earley *et al*). 411
Cold pressor test during echocardiography in mitral valve prolapse (Pitcher *et al*). 524
Collateral arteries in pulmonary atresia with ventricular septal defect (Haworth). 5
pulmonary circulation in (Haworth & Macartney). 14
Computerised electrocardiography, future: review (Meijler *et al*). 1
